MOJO Minnesota is an innovation advocacy force comprised of like-minded business leaders working to fuel entrepreneurship and reignite Minnesota's culture of innovation. We are business advisors, entrepreneurs, venture capitalists, angel investors and attorneys passionate about creating jobs and economic growth through the power of Minnesota-based technology companies.

Our goals are to provide a unique voice and support to Minnesota-grown innovation and shine the light on amazing new technologies developed here that will propel us into becoming a top five nationally ranked state for innovation and growth. We will do this through state policy advocacy, creating and hosting unique and interactive events and fostering an active and growing dialog that connects like-minded entrepreneurs, investors, industry groups and corporate partners in bringing Minnesota's rich innovation heritage back into national prominence. For instance, we actively worked to get the angel investor tax credit passed last session. We brought over 100 leaders together in May to move our agenda forward.
